PRODUCT PROFILE

HAT CHANNEL

Hat Channel is a versatile construction material used most often as a substrate in roofing applications. Hat Channel comes in 16, 18 and 20 GA galvanized steel.

- Finishes: Galvanized
- Gauges: 16, 18, 20
- Standard 10' length, other lengths available by request
- Uses: Roofing substrate, cladding substrate, framing reinforcement and drywall prep
- Applies over open framing or solid substrate
- Attaches to lumber, CMU wall, steel and more

Gauge	Weight / Foot (Lbs)	Load in Lbs / Linear Foot Span Length (Feet)				
		2'	4'	6'	10'	12'
