

DISCOUNT METAL PANELS, INC.

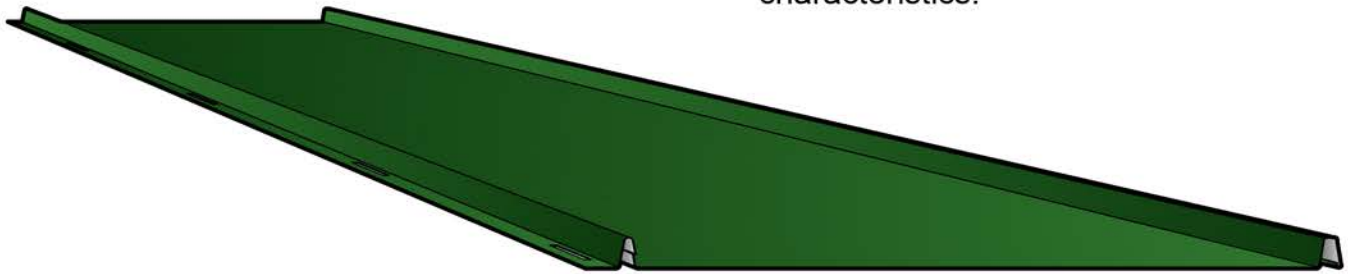

PRODUCT PROFILE

SNAP-LOCK

12", 16" or 18" net coverage panels available

Snap-Lock panels keep the seam well above the water runoff. During any expansion or expansion stages, the seam can shift without altering its weatherproofing quality or structural characteristics.

- Integrated clip system eliminates unnecessary roof penetrations
- Optional minor ribs to reduce the effects of oil-canning
- Available in a variety of colors
- 24 solar reflectance colors available for increased energy efficiency
- Easy to install panels
- Self-cleaning
- Long-lasting
- Can be installed directly over existing composition, eliminating the cost of tear-off and allowing for problem free installation during the rainy season.
- Panels hide all screws and fasteners for a clean finish.
- Necessary accessories and trims are available.
